

# Happy Mother's Day!

- 2019 -

## Three unique Mother's Day gift ideas

Mother's Day is fast approaching, so it's time to start thinking about how you'll celebrate. Here are a few ideas that are sure to put a smile on her face.

### 1. A professional photo shoot

Is your mom the type of woman who's never satisfied with the way she looks? Treat her to a session with a professional photographer! This way she can finally have a picture of herself she actually likes.

Don't worry: an experienced photographer will know exact-

ly how to find the perfect angle to immortalize Mom's unique beauty. If you want to make her feel even more confident, book an appointment with a professional stylist right before the shoot.

### 2. A tree

If you're looking for a gift for your nature-loving mom, have her choose a beautiful tree that she can plant wherever she pleases.

If she lives in an apartment, have her choose a smaller tree that she can keep indoors. Ideally, she should pick one that doesn't require too much

maintenance. She'll surely be moved by your special gift and out-of-the-box thinking.

### 3. A personalized trinket

There are all sorts of different companies out there that let you personalize clothing, pillows, cups, puzzles, jewellery, calendars, aprons — virtually any other item you can think of!

You could engrave, embroider or print whatever you like on the gift you want to give your mother. Think about using a special image, an inspiring quote or simply her name. This thoughtful present is guaranteed to make Mom smile.

## Five ways to spoil Mom

When you ask your mom what she'd like for Mother's Day, is the answer always "nothing"? Well, this year, why not take things into your own hands? Here are a few ways to

spoil your mother (whether she likes it or not!):

1. Clean her fridge or wash her car (it's free and highly appreciated)

2. Kindly forbid her from cooking (and order from her favourite restaurant instead)

3. Be her chauffeur for the day ("We're going wherever you want to go and listening to the music you want to hear")

4. Take her to the movies (and order whatever drinks or snacks she'd like)

5. Give her a gift card for a massage, a manicure or a professional makeover (especially if she's not one to treat herself very often)

Make sure Mom knows that she's the star on Mother's Day and that she deserves to be pampered accordingly.

## Give Mom a Mother's Day bouquet

Everyone likes getting flowers! This Mother's Day, make a mom in your life (your own mother, your spouse, your grandmother, a friend) smile with a beautiful floral bouquet.

How do you choose the perfect flowers to make Mom's eyes sparkle? There are several things you should consider, but the most important is personal preference. Some people are absolutely obsessed with roses, while others are fond of tulips, lilies or daisies. When in doubt, ask your florist to prepare a bouquet with a variety of different flowers — there's sure to be a few that strike her fancy.

If you aren't sure whether the bouquet's intended recipient has the right kind of container to display her flowers in, ask your florist to create an artistic arrangement in a pretty vase. This smart solution eliminates the need for trimming the stems — the bouquet will be ready to display immediately. Plus, the reusable vase is like a bonus gift!

*For a gift bouquet that keeps on giving, ask your florist to include a few flowers that haven't bloomed yet in the arrangement.*

*Treat a special mom in your life to a bouquet of fresh flowers.*

## Four ways to show your love

Mother's Day is a wonderful opportunity to express all your love and gratitude to the mother of your children, whether they're still small or all grown up. Embrace the woman in your life with tenderness, and highlight this special day with a gift she'll never forget.

- Give her some of her favourite flowers and accompany your bouquet with a message that's both touching

and sincere. Write "I love you," tell her how happy you are to live with her and thank her for bringing your beloved children into the world.

- Choose some jewelry with special meaning: a "mother-and-child" or heart-shaped pendant; a ring; earrings or a bracelet in gold or silver. Have it engraved with a loving word, your initials or an important date.

- Invite her to a fancy restaurant with just you or with the kids. It's a great opportunity for her to discover local specialties or flavours from around the world. Or, find out about gourmet hotel packages that will let her prolong the relaxation. She's sure to remember this Mother's Day after enjoying a feast fit for a queen and a romantic night with you.

- Invite your sweetheart to a spa or beauty clinic so she can relax and be pampered. Afterwards, be sure to tell her how beautiful she is.

Whatever the gift, be considerate and attentive. Give her a day she'll remember with pleasure. Perhaps this Mother's Day will be the start of a renewed relationship, closer and more loving than ever before.
